The Curriculum Our program incorporates many educational hands-on activities and allows self-discovery through instruction. Your child will participate in a variety of learning centers that include art, books, blocks, puzzles, nature, music, and dramatic play. The High Reach Learning Curriculum is used in our One, Two, and Three Year Old classes. The Four Year Old and Kindergarten classes use the Letter People Curriculum. Both curriculums are thematically based and provide instruction in phonics and math. The children attend Chapel each week. The lessons taught during this time are reinforced in the classroom throughout the week. Bible verses are also taught. Social skills are developed through sharing, taking turns, reasoning, and problem solving.
